RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231
Dear Sir:

This is in response to the December 10, 2001 Office Action, requiring election between Groups I and II. Group I, drawn to a method of providing topical analgesia employing two agents and including claims 11-26, is elected with traverse. The elected species of anesthetic is lidocaine and the elected species of analgesic is morphine. The election of species is also traversed, and made with the understanding that the generic claims will be searched once the species is otherwise determined to be patentable.

REMARKS

Applicants respectfully request reconsideration and withdraw of the restriction requirement. Groups I and II share common elements and therefore common modes of operation (e.g., a topical method of producing an antinociceptive response using at least one opioid
